THE PEOPLE WANT PROOF.—There is
no medicine prescribed by physicians, or
advised by Druggists, that carries such
evidence of its success and superior value as
BOSCHER'S GERMAN SYRUP for severe
Coughs, Croup, whooping Cough, and
Lungs. A proof of that fact is that any
person afflicted, can get a sample Bottle
for 10 cents and try its superior effect before
buying the regular size at 75 cents. It has
lately been introduced in this country from
Germany, and its wonderful cures are as-
tonishing every one that use it. Three
doses will relieve any case. Try it. Sold

LOCAL NEWS.

We are indebted to Mr. S. S. Myers, for
copies of late Virginia papers.

PERSONAL.—Miss Emma Dunn, one of
Marion's fairest, is spending a week with
friends here.

THERE are 16 divorce cases pending in
the Lincoln Circuit Court. Abandonment
is the general plea.

WANTED.—Pasture for 15 mules. Per-
sons having grass to let out, would do well
to apply at this office.

A SUIT has been pending in the Lincoln
Circuit Court for three years, over a \$20
bill. And still the Plaintiff is not happy.

J. B. OWENS informs the public that he
has a thoroughbred Boar, which he has li-
censed, and will permit him to serve Sows
at five dollars each, cash in advance.

It affords us pleasure to assure the pub-
lic that the Scarlet fever has disappeared,
and that there is no longer any danger from
that disease in our town or county.

SPRING is the time to paper the walls of
your houses. Hayden Brothers have a fine
assortment of glazed and unglazed paper,
bordering etc., in great variety and low.

NOTWITHSTANDING the cold weather and
snow of the past few weeks, some of our
exchanges assure us that there will be a
partial crop of peaches and other fruits.

THERE is a wild rose bush trailing over
a house in town, which covers a space
twenty-two feet high, and fifteen feet wide,
which bears annually over a 1000 blooms.

THE COURT-HOUSE yard and its enclosure,
are undergoing a thorough cleaning and
repair, in order to present a neat appear-
ance at the opening of our Circuit Court
next Monday.

We saw a gentleman take from a single
lake salmon, one and a quarter pounds of
eggs. It looked like wholesale slaughter,
as these eggs would have produced several
thousand fish in less than a year.

THE April term of the Lincoln Circuit
Court, will begin next Monday. The dock-
et only numbers 80 cases of Appearance,
which number, is much less, we are informed,
than for many years past.

C. S. R. R.—Reid and Flannery, who
had the Cumberland River Bridge, besides
several sections of graduation, completed
their work this week. Mr. James Clark,
Contractor for sections 87, 88 and 89, has
also finished, and had his work accepted by
the Engineers.

THERE will be no school at the Female
College to-day or Monday, as Mrs. True-
heart promised her pupils, on account of the
short holiday given them last Christ-
mas, that she would give them "Good Fri-
day" and "Easter day" as holidays. It
would be a nice time for the scholars to get
up a fishing party at Mr. Barrow's pond.

NOTHING adorns the interior of a house
better than fine furniture. Hayden Brothers
have all kinds, and of the best value—
embracing bureaus, bedsteads, tables,
chairs, wardrobes, what-nots, etc.

A NEGRO named Turpin, has been lodged
in Jail at Danville, in default of \$2,500
bail, accused of attempting rape on the person
of a little girl seven years old, the
daughter of Lee Irvine, of Perryville.

It is pretty generally believed that the
Radicals will run R. J. Brown, of Spring-
field, Ky., as their candidate for the new
Court Judgeship. He is thought, by his
party, to be their ablest and strongest man.
They will hold no Convention, as we
learn.

ATTENTION is called to Mrs. Davies' new
advertisement to be found on our first page.
She has just returned from Cincinnati with
a most charming selection of Spring Mil-
linery, and as she is always up to the fash-
ions, her goods can be relied on by the most
fastidious.

Now that Spring has come in earnest
every body wants a nice suit of clothes. If
you will go to Hayden Bros, you can get
them at a price ranging from \$8.00 a suit
to \$50.00. Their stock is no small, refuse
kind of goods but, large and complete in
every particular.

The candidates for Common Pleas Judge
have pretty well canvassed all of the six
counties in the District, and Washington
and Boyle, are now the only counties re-
maining, to act in the choosing of dele-
gates. They have canvassed the latter
county this week.

The Central Kentucky Medical Associa-
tion meets next Wednesday, 19th inst., in
Lancaster, at 10 o'clock, a. m. The debate
to be opened by Dr. J. L. Price, of Mercer
county, on *Parapneumonia*. Delegates to
the American Medical Association will be
selected at this meeting.

The first term of the new Common Pleas
Court, will be held in Boyle county, in
June. The term of that Court will be held
in Lincoln county, the 1st Monday in
December. We will publish a full list of
the Court in the various counties, when we
receive a copy of the Act.

MR. R. E. BARROW, desires us to state,
that those of our citizens pictorially in-
clined, can enjoy the sport in his fine pond
(except on Sunday's) until the 15th of
May. Those who accept this kind offer
are requested not to take their horses in-
side of his enclosure.

AN endless variety of children's and mis-
ses' shoes at Hayden Brothers. They make
a specialty of these goods, and you will
find what you want, on hand. Don't
waste time running about town looking for
any goods you want, but go directly to their
store and supply yourself.

OUR business Manager, after several days
absence in Cincinnati, selecting and pur-
chasing new Job Type and Material, re-
turned yesterday, and is now prepared to
execute the most difficult job printing that
can be brought him. Give us a trial. We
are determined to duplicate city prices.

LOGAN COLLIER, who had rented the
farm of Mrs. Snodgrass, near Mt. Vernon,
was unfortunately caused to suffer the loss of
the farm house by fire, recently. Mr. Col-
lier lost all of his household and kitchen
furniture, which amounted to about \$250.
The buildings were worth the same.

MR. CLAY SANDERS, who died so sud-
denly last week, at Hall's Gap Station, was
carried to Danville, where his wife's rela-
tives reside, for interment. We were in-
formed by his father-in-law, Mr. James,
that as he had been troubled with a heart
disease heretofore, there can be no doubt
that it caused his death.

HAYDEN BROS, desire us to make special
notice of the fact that they have the finest
lot of carpeting and matting ever offered in
the Stanford market. In fact, we know from
careful inspection that this is true, as many
of them are the lightest, prettiest, and most at-
tractive colors ever seen. As to prices,
no house can sell them lower.

ON Saturday last, there was a meeting of
the Democratic party held in Lancaster,
Garrard county. That meeting instructed
for Col. R. J. Breckenridge, for Common
Pleas Judge. We have been assured that
other aspirants for the same office, had been
their friends, and if a fair vote had been
taken, other candidates would have received
a share of the vote.

MR. ADAM GENSEL, our clever townsman
who bottles and keeps always on hand, the
best Ale in the State, showed his apprecia-
tion of the wants of an impecunious citizen,
by sending us a dozen bottles of the healthy
and harmless beverage this week. We
thank you very kindly, Mr. Gensel, and
each time we quaff the delicious stuff, will
be a health to you and the baby.

THEY seem to be in earnest about build-
ing that narrow gauge R. R. road from Rich-
mond, Ky., to Lee county. President
Stanford of the L. & N. R. R., passed up
the road recently, to look into the matter,
and when he gives attention to any thing,
he "means business." The extension of
this road would add largely to the value of
stock in the L. & N. Railroad.

A LARGE squad of men who have been
working for some weeks on the Green River
Bridge, C. S. R. R., employed by the
American Bridge Company, of Chicago,
passed through town last Monday, on their
way home. The foreman informed us that
they had been called in for the present, to be
placed upon other work, as the engi-
neers had to make some changes on the
trestle.

IN several of the counties in South East-
ern Kentucky, there exist fine quarries of
sand, or grindstone. The C. S. R. R. passes
through some of them. This stone, when
dressed, makes a fine substance for the
grinding of edge tools. If properly work-
ed, these quarries would be very profitable,
and we presume, that when the road shall
have been completed, they will be opened
and worked.

QUEEN OF MAY.—The patrons of the
Tarrant College, at Crab Orchard, intend
giving the scholars of that institution, a
May day festival on the lovely grounds
connected with the Springs, the 1st day
of May. At night, the pupils will crown
three queens—Miss Lilla Fisk, Queen of
May; Miss Maggie Harris, Queen of Flow-
ers; and Miss Maggie Dunn, Queen of the
Fairies. A splendid time is expected. Our
thanks are due Mrs. Tarrant, the Princip-
al, for an invitation.

A LADY, aged about 14 years, passed thro'
town the other day, on foot. He was com-
fortably clad, but had no money. He said
he had walked all the way from Knoxville,
Tennessee, and intended to walk to Rush
county, Indiana; where some relatives of
his reside. He appeared cheerful and con-
tented, and said that no one had offered to
charge him for a nights lodging or a meals
viaticum during his trip.

ALL the little boys about town, black
and white, from the size of a pepper box
to four feet three inches, have the fever.
Not the scarlet kind, for that has played
out, but the fishing fever. Every day,
squad of them can be seen, pole in hand,
on the creek banks, pulling out the min-
nows by the dozen. Glorious days of hap-
py childhood! Make the most of them,
boys, they will never come again.

LADIES, we have something to tell you.
Hayden Brothers, have the largest, finest,
and most superb lot of Ladies Dress Goods
to be found anywhere outside of the large
cities. Grenadines, Alpines, plain and
striped Victoria Lawns, Japanese Silks,
Pousses Silks, Poplins, Pacific Cashmeres,
etc., etc., in endless variety, and they will
duplicate any bill made in Louisville or
Cincinnati. Just go and look at them.

A FIGHT between husband and wife, oc-
curred one day this week, a few miles out
in the country. The man, as usual, got the
worst of the battle, receiving a severe cut
across his forehead with a heavy stick. He
has been in bed ever since, and his wife has
waited on him as faithfully as if she were
not the cause of his confinement. That's
the way to settle things, and our Louisville
friends who are getting up such a notoriety
for divorces, would do well to make a note
of it.

C. S. R. R.—The compensation of the
Trustees having at last been decided by the
Superior Court giving them the amounts re-
commended by the majority report of the
Commission, it is hoped that they will now
go to work and let the remainder of the
road. Strikes us if those men were paid by
the job instead of by the year, they would
not drag the time out so long. Congress
has decided that Gen. Weitzel, will have to
resign, his military position if he wishes to
take the Trusteeship of the road.

A FELLOW who came up on the Somerset
last week, passed himself off on the pas-
sengers and driver for Weston, the pe-
destrian. Why any one should desire to
personate that walking idiot and humbug,
is a strange thing. Weston is in Europe,
and has been for some time, and for such
we care, he may remain there for an in-
definite time. The man who represented him,
cut up a good many antics on the road
here, and after his arrival—and all for the
purpose of making folks believe that he
was the veritable nin-compoop, Weston.

STANFORD is one of the best points in
the State for a traveling Exhibition of any
kind, which has merit, from a minstrel
band to a hippodrome. Its central loca-
tion, good roads, the extent of the popula-
tion of the surrounding country, all conspire
to render our town a desirable point.
Yet, these exhibitions rarely visit us. We
cannot understand why it is so. Our citi-
zens appreciate, and liberally patronize any
meritorious show, or concert. Other towns
in the State are to be favored in this way,
and we hope that some of the many travel-
ing exhibitions will give us a call at an early
day.

A MAN named "SAS. KITE," who was in-
debted to a prominent citizen of our town,
as reported to be on the eve of departing
from the State without leaving any prop-
erty to pay the debt. The result was, that
a writ of arrest was obtained for him, and he
was taken into custody. Being unable to
give a bond for his appearance at a given
time, he was remanded to jail for the time
being. This is the only kind of case where
any one can be imprisoned for debt in this
State, and then, only until the debtor dis-
charges the obligation, or takes what is
known as the insolvent oath.

WE learn from Mr. Taylor, our agent
who was present at the trial at Shelby City,
the following: Park Bullock, a railroad
man, crazed with whisky, went to the house
of Willis Kenley, and raised a fuss, which
caused Kenley's wife to start elsewhere for
help. Her little child attempted to follow
her, when the inhuman fiend caught it, and
hurling it heavily against the ground,
breaking its collar bone and arm. This oc-
curred a few Sunday's ago, Bullock having
secreted himself since, was not found until
Tuesday. The judgment of the Court was
that Bullock be sent to jail 41 days, and
pay a fine of \$75.

A TWO horse wagon and team belonging
to Top Givens, of color, were standing near
the depot, here, last Wednesday morning,
and the horses became frightened, started
off in a run along the ties and rails of the
road, down towards the Junction, ran
across a wide "gritiron" cattle guard be-
hind the Baptist Church, and on down to
the steep fill, where the wagon turned over
and became uncoupled. The horses ran on
down into the culvert. Strange to say, the
only damage done to any thing was the
breaking of a trace-chain. Top says "he
always did feel a little 'jabberous' 'bout
dat off hoss no how."

PLUMLEY.—The young man Plumley,
who was supposed to have been murdered
at King's Mountain Tunnel, has turned up
near Somerset, considerably bruised. He
says the man Potter, now in jail here, was
the only man arrested who did him serious
harm. That he, with several others of the
crowd along with him, who have since fled
the country, hung him up for a while, but
cut him down again. It is reported that
those who have been bailed out, have left
the country, or will leave before Court.
Potter is said to be a bad man, and to have
been guilty of wrongs heretofore, and that
he has been in a worse prison than the
Stanford jail.

PULASKI CIRCUIT COURT.—From Com-
monwealth's Attorney Denny, who was re-
turning from the Court now in session at
Somerset, we learn that the following cases
were disposed of: The negro Kyle, who
murdered young Prentiss, the clerk of P.
F. Smith, Railroad contractor, was sent to
the Penitentiary for 10 years. Mr. Denny
says that while it was the general impres-
sion that the negro should be hung, no
stronger case than manslaughter could be
made out against him. Jim Gillispie who
killed O'Brien, a year or more since, got
eight years, and Mose Barrett, for horse
stealing, went in for two years. The cases
of Strunk and Hughes, accused of being
accomplices in the murder of Murray, were
continued, the parties giving bail at \$1,000
each. Strunk was the Constable who had
Murray in custody, and it is said, that for a

consideration of \$50, he turned him over
to the woman Cook, and Hughes, who mur-
dered him. It is said that he was a
strunk is likely to have a lively time of it.
Court will probably not adjourn till this
evening.

DEBATE CLOSED.—The debate held last
week by Rev. Mr. Ditzler and Elder Street-
ney, closed last Friday evening, which was
the fourth day. It was thought for a while
that other questions would be decided up-
on for debate, but as no agreement could be
arranged between them, the people, car-
ger for a continuance of the argument,
were not gratified. Each of the Reverend
gentlemen had his warm partisans who
claim a decided victory for their side. We
were not called upon to act as Umpire be-
tween the two opposing bodies, hence, do
not feel justified in rendering an opinion.
The debaters said that they had held many
debates in different places, but no where
were they treated with greater kindness
and courtesy, than here in Stanford, nor
had they been greeted with larger, more
intelligent and attentive audiences. If the
discussion between them here will be the
means of directing the people to a closer
and more earnest study of the Bible, then
will the debate not have been in vain, what-
ever may be the opinions of those who
heard it, as to which side the victory be-
longs.

LAND, STOCK AND CROP ITEMS.

THEY are eating new potatoes of the
Early Rose variety, in Southern Tennessee,
grown there.

A SALE of Shortlorns at Abington, Ill.,
amounted to \$24,295, an average of \$33 per
head. One sold for \$1,100; another for
\$1,020.

The crop of Irish potatoes in this sec-
tion, last year, was so fine and large, that
our merchants have not been compelled to
send to the city markets for seed, as has
been the case almost invariably for the past
five years.

CAPT. COWAN returned Tuesday, from
the South, whither he had been with a
drive of mules. He reports that the mar-
kets are enlivening, and that he realized a
good profit on his lot, consequently, he is
in good health and spirits.

FINE MILLS.—We were shown on yester-
day, a pair of four year old mules, the
property of Dr. T. B. Montgomery, which
in point of size and beauty, cannot be ex-
ceeded. They are 17½ hands high, and are
valued at \$500 for the pair. The Doctor says
it is almost impossible to load a two horse
wagon too heavy for them.

FOR several years past, the price of land
in Lincoln and adjoining counties has been
on the decline until the present year. From
sales which have been made during the
past six months, there has been shown a
decided improvement in the prices. First
and second class lands have been sold re-
cently, for a fair price, and the prospect is,
that higher prices will be obtained.

A MR. BROWN, living in this county, lost
twelve sheep, during last Sunday night.
Two of the flock of 50, had on bells, and
the sheep were near the house, which would
have given the farmer notice of the pres-
ence of dogs, in all probability, but the
entire family were away from home that
night. Mr. Bright, who lost twenty five or
thirty sheep, the week before, had no bells,
else he might have saved all, or nearly all
of them. Farmers who raise sheep, should
have a bell for every twenty or twenty-five
animals—and, when possible, keep them
near the house, especially at night.

A MAN named "SAS. KITE," who was in-
debted to a prominent citizen of our town,
as reported to be on the eve of departing
from the State without leaving any prop-
erty to pay the debt. The result was, that
a writ of arrest was obtained for him, and he
was taken into custody. Being unable to
give a bond for his appearance at a given
time, he was remanded to jail for the time
being. This is the only kind of case where
any one can be imprisoned for debt in this
State, and then, only until the debtor dis-
charges the obligation, or takes what is
known as the insolvent oath.

OUR farmers are about ready to plant
corn. Mr. Zack Elkin, is done planting.

MR. JOHN W. LOGAN, sold to J. Simp-
son, on last Tuesday, 4 nice gilts at 5 cents
per pound.

BORN.—To the wife of W. A. Holtzclaw,
on the 5th inst., a son.

WHOPPING COUGH is going very light
with the children in this section. It is
thought that Mrs. Annie McClary, wife of
W. F. McClary, has Scarlet fever; it is
hoped that the attack is a light one; Mr.
McClary is also, very unwell, having sym-
ptoms of the same disease. There are some
few cases of chills in our midst, also a few
cases of pneumonia reported—the victims
are Mr. E. H. Smith, and a son of Mr. A.
Robinson. John Logan, who is been af-
flicted with nervous rheumatism for some
time past, is now going about.

WE are informed that White Oak Union
Sunday School, will resume on next Sun-
day.

The Rising Star Debating Society, will
hold its next meeting at our Schoolhouse,
about the last of May, that is, if we don't
get into a war of races, or the world don't
come to an end, as we are informed that
such will, perhaps, be the case. Wonder
how men get such information, please tell
some body, but don't speak at once, who
has God made wise beyond what is written.
To whom has He revealed this information?

The latest freak of nature among us, can
be found at H. B. Floyd's. His Berkshire
sow gave birth to a creature—about the size
of a pig, having but one eye, no mouth, but
a snout about one-and-a-half inches long.
The general appearance of the thing, re-
sembles that of an elephant, very much.
No name assigned it yet, but for the pres-
ent, we shall call it "Beelzebub."

THE Mt. Salem neighborhood has for a
long time stood high for morality and re-
ligious deportment, but for some cause, we
are sorry to say, it seems now to be degen-
erating. The greatest breach worthy of
notice, is, that of Sabbath breaking. Ne-
groes, and even some dark skinned white
people, make their business to stroll up
and down the creeks, fishing, and keeping
up a general disturbance, regardless of the
laws of man, much less the laws of God.
But what is worse than all, it is not infre-
quently the case, that young men of re-
spectable parentage are seen driving their
fine horses to the salley's, skeleton wags,
wags, etc., visiting on mares, for sport and
merriment—all of which, are shameful as-
pects to intelligent and decent society. The
older heads would do well to look after
these things, or in a short time we shall
have regular Sabbath rowdy rings as some
communities have already.

CASEY COUNTY NEWS.

the county, that surpasses it. CASEY.
